1. Teaching Assistant

^{1.6)} Please enter any feedback on the Teaching Assistant below.

- Dheeya explained the concepts in a clear and logical manner and answered any questions brilliantly. I would not have the grasp I have on the content without her help.
- Dheeya has been so helpful throughout this term. She has always made herself available to answer any questions, no matter how stupid they sound, and has definitely helped me to better understand some of the concepts in the QM module!
- Dheeya is amazing! She is substantive with her help and generous with her time. Thank you so much!
- Dheeya is extremely helpful and takes the time to explain difficult concepts. She was also helpful when it came to structuring the group project and provided good suggestions. She also goes out of her way to make her schedule extremely flexible. In fact, just recently, her Office Hour schedule was full so she offered my group a slot on Saturday, which was very much appreciated.
- Dheeya is great, she's helped us a lot in making up for the confusion Ralf has caused.
- Dheeya was amazing with us. She is very knowledgeable about the topic but also really good at explaining it. I wished we all had more face time with Dheeya so we could all understand concepts that were not clear during class. I booked one-on-one calls and team calls with her and she was always available. I personally have worked as a TA so I know how difficult it can be. Honestly, Dheeya was outstanding.
- Dheeya was quick to respond to emails and always provided additional reference material to support confusing topics.
- Dheeya was so helpful, I really can't thank her enough. Can she please teach the actual module?
- Dheeya was such invaluable support throughout this module to us. She was so supportive throughout the group project, helping us understand topics and providing guidance. Without her, we would not have been in the same position where we felt confident about our topic and how to go about the project. Outside of this, Dheeya provided so much help in terms of revision support and explaining concepts from lectures. She was patient, clear and very approachable. Thank you!
- Dheeya was very knowledgeable and does a good job explaining things clearly.
- Haven't interacted with TA
- Helpful and friendly
- I attended only session held by Dheeya, but she was very helpful.
- I didn't really interact with Dheeya
- I think the TAs for this course were not put forward enough - weekly tutorials should have been organised to help enhance everyone's understanding of QM
- N/A
- Never interacted with Dheeya.
- Our first revision session with Dheeya and Petra was great - it was super helpful to go over some key definitions of concepts from the module which we were confused about e.g. stationary data. Looking forward to the session next week.
- She really knew her stuff and was very good at understanding which points would be harder for people to understand, so provided tips and materials that would make it simpler for us.
- Super helpful
- Thank you so much! That was really helpful!
- Thanks Dheeya!
- The TA should do more in helping the students especially in providing simple side tutorials for the whole class like what Jonas did and no quick 15 minute slots. There was really no need for TAs. Responses to questions were very vague.
- The tutorial held by Dheeya and Petra was quite helpful!
- Very good at explaining what was once difficult concepts to understand. Very friendly at the same time!
- Very responsive, nice and efficient!
- dheeya was great. explained as best she could but the amount of questions i had were unrecoverable given ralfs tuteledge
- everything is nice

- jhave not had direct contact with the TA
- n/a
