- Analyzing the rationale behind the questions should take more time than calculating simple equations, especially the latter one is clearly proven to be solvable.
- Dheeya is a great TA and explained things in ways that made intuitive sense. She is also very engaging during TA sessions and made sure that we were all on the same page, which is very nice.
- Dheeya is a great TA, she coordinate the sessions very well, answer questions and provide explanation thoroughly. I think we need more hours with TA, one hour is not enough because there so much to cover, yet so little time.
- Don't spend so much time on repeating the lecture, but rather focus purely in questions, Max 2min at the start
- I appreciate how Dheeya encourages us to book 1-to-1 sessions with her whenever we feel like we need to discuss any question in particular further.
- N/A
- Perfect
- Responsible. Clearly show the solutions of exercises during the TA classes.
- Sometimes she will make mistakes. And she didn't answer questions clearly from time to time.
- Sometimes, the TA may mix up some concepts and have some miscalculations when illustrating the questions.
- Teaching assistant is really helpful in answering questions and for tutorials!
- Teaching assistant tried a lot to help students understand the questions.
- Tutorial question is fine but the TA teaching is bad because she sometimes is not clear and may giving the wrong logic and answer.
- Tutorials should be longer as there were little/no time for questions.
- Very good and helpful
- Very helpful on answering tutorial questions. Provided clear revision, too.
- Very patient during sessions
- a responsible teaching assistant
- good
- none require
- this module focus on case instead of theory. This is good, but sometimes actually I 'm not sure the relationship between the business case and knowledge.
